PROSPECTUS OF THE Maine Farmer and Mechanics' Advocate. (New Series.) E. Holmes, Editor.

THE proprietors of the MAINE FARMER, in ac-rodance with the suggestions of their briends, and with a view to meet the wishes of a large number of their subscribers, have come to the conclusion to make a change in the form and size of the paper, on the first of January next. It will be about double the size that it now is.

The propose to issue a paper, once per week, in alarge folio size, to be called Maine Farmer and MECHANIC'S ADVOCATE. One page is to be devoted evolusively to Agriculture one to Mechanical subjects, frequently illustrated with engravings - one page to the current news of the day, with the proeedings of the Legislature and of Congress when these two bodies are in session and the remaining page to be devoted to miscellaneous reading, poetry, aftertisements, &c.
They presume it is not necessary to enlarge upon

diar character or future course of the paper now offered to you. The Maine Farmer has been in existence nine-years, steadily and perseveringly devoted to the interest of the productive classes. It officentiate, as hitherto, a steady and undeviating friend to the Farmers and Mechanics; zealously urg inforward the spirit of improvement, and encour-ing the efforts of honest industry. Many of our bei practical Farmers have long been engaged in contibuting to the columns of the Farmer. These as well as others will continue their aid and assistmee in the Agricultural portion, and we have the sourance of many excellent Mechanics that they vil also contrib-ute to the columns of their depart-

WIRE CAUCUS.

The Whigs of Bangor will meet at the City Hall, at 7 o'clock, on THURSDAY Evening next, to nominate a candidate for Mayor, for He ensuing year, and to transact such other fairs, and of course present too great a variety business as may come before the meeting.

Per order of the City Committee, Bangor, March 7, 1842.

Political Affairs in New Hampshire.

The breach-in the Locofoco ranks in New Hampshire, caused by the departure of Isaac Hill and some of his friends from the radical doctrines of their party, continues to cause the greatest excitement among the leading politicians of that party. Mr. Hill saw the downward tendency of Locofocoism in practice and in his attempt to break the iron bands of party [which he formerly so industriously aided to forge and rivet, is now visited with the hottest denunciation of those men he has lifted to political importance. "Traitor", and "Federalist" and every term of political reproach and invective made familiar and terrible among the people of that State by Mr Hill, is now poured without stint or measure upon his head; and they even declare their convictions that in six months he will be found acting "hand and glove with the jederal party."

Thus he is turned over wether he will or not "to the federal perty"!! In the mean time there is a deep ground swell among the people a breaking up of political parties, and out of which now promises to come a more rational and 1 conservative political theory and practice.

The candidate of Mr. Hill and his friends, for Governor has declined accepting the nomination and at the election on Tuesday the 8th inst. the . old party-leaders will probably succeed, but a l breach has been made that will not be healed the power of the leaders is broken and the people will not remain inactive and see their prosperity levelled with the dust that a few political demagogues may feast at the public crib.

The ery of federalist by the Locofoco leaders in New Hampshire is highly musical while in } their candidate for Governor!

Apprentices' School.

There is no part of the Common School sys tem of our city that can be contemplated with more heartfelt satisfaction than the plan of providing the means of education to apprentices and those young men who are preparing themselves for the active duties of life either upon the land or the sea. They collect in this city from the neighboring towns either to learn trades, follow the sea or engage in business afin their attainments to be able to class in any of our tegular schools even if there were room to admit them. But by opening a school expressly for them the teacher is enabled to allow each of them to attend to those branches of school education which they most require, with the least sentatives, reported to the Legislature gives to possible loss of time. BY DAVID W. PORTER, A member of the Bangor Apprentices' School.

How oft, along thy banks, fair Stream, I've watched the fading light of day, And lingered till day's latest beam, Had fied before the night away.

How oft, in days of youth and prime, I've plyed the our upon thy breast, And cheerful tossed the sinking line, With health and spirits ever blest.

How oft when evening shades came on, And moonlight k saedthy silver sheet, I've sat in thoughtfullness slone, And marked the ripples at my feet.

Those hours are gone; thy banks, I roam No more, nor toss the dipping line; Afar removed from thee and home, No pleasure such as this, is mine.

Yet oft-as here in gloomy mood I sit, and view days fading beam, O'er the loved past will memory brood, And point me back to thee, fair Stream!

When the gullotine was first set in motion, it was understood that a acridio gentleman, who was a member of the Legislature, could not be appointed Slieriff of one of our Counties, for the reason that it would never answer to begtow the executive patronage upon the members of the legisla-tive department.
